Notes for Examining Physician

WEIGHT.—Males, without clothing, and also in ordinary clothing without overcoat or hat (weigh twice); females, clothed, but without wrap or hat. If overweight, state whether due to bone and muscle or to fat.

HEIGHT.—Without boots or shoes; observe that no appliances are used to increase.

The examination should include the following observations:

1. **Eyes.**—Ptosis; discharge; corneal scar; pterygium. In recording distant vision consider 20 feet as normal and report all vision as a fraction with 20 feet as numerator and the smallest type read at 20 feet as denominator. If glasses are used, record for each eye the finding with and without glasses. Near vision must be reported. In testing vision without glasses the applicant or appointee should be instructed to remove the glasses at least one-half hour before testing uncorrected vision.

2. **Ears.**—Evidence of middle ear or mastoid disease; condition of drums; discharge. In recording hearing, record 20 feet as normal distance for conversational voice and record deviation from normal as fraction with 20 as denominator and actual distance as numerator.

3. **Nose.**—Ability to blow through each nostril. If free, a speculum examination would not be indicated.

4. **Mouth and throat.**—Missing teeth, pyorrhea; tonsils, hypertrophy or disease.

5. **Gastro-intestinal.**—Ulcers, inflammations, etc.

6. **Thyroid.**—Presence of tumor in neck and tremor, exophthalmos; nervous high-strung disposition, especially in women.

7. **Heart.**—Murmurs. State whether functional or organic. If valvular disease exists, state whether or not it is fully compensated. Arteriosclerosis.

8. **Lungs.**—It is necessary that the auscultatory cough be used. If tuberculosis is present, state whether active or arrested; if arrested, state your opinion as to how long it has been quiescent. Sputum to be examined for tubercle bacilli in all suspected cases.

9. **Hernia.**—Give details as to size, location, etc., and whether well-fitting truss is worn. Inguinal hernia exists when ring is enlarged and on coughing visceral impulse is felt which follows the finger on withdrawal.

10. **Varicocele.**—If varicocele is present, state approximate size—e. g., size of walnut, lemon, etc.

11. **Flat foot** of such a nature as to incapacitate or become aggravated by work or be alleged later to have been caused by accident or occupation. By "flat foot," as used in this form, is meant a *weak* foot with impaired function, the term being equivalent to "fallen or misplaced arch," an abnormal condition. Impairment of function is the point to be noted. An anatomically flat foot, but strong, is not disqualifying.

12 and 13. **Scars, deformities, atrophies, and paralyses** should be noted, but it is not important that small insignificant scars or blemishes which might be referred to as marks of identification be recorded.

14. This entry should include symptoms and full history of any mental or nervous abnormality.

15. **Urinalysis** to be made in case of persons over 40, and in all cases where arteriosclerosis, nephritis, or diabetes is suspected.

Record of urinalysis, if made: Sp. gr. 1.020 Albumen Neg Sugar Neg Casts None

Blood pressure: Mm. Hg. systolic 118 Mm. Hg. diastolic 78

If tachycardia is present, give pulse rate: Sitting ✓ Immediately after exercise ✓ Two minutes after exercise ✓ Cardiac reserve ✓ (Good, fair, or poor)

I have found this applicant abnormal under the following headings:

except none of left eye - at showing #1

In my opinion, applicant is capable of performing duties involving Arduous physical exertion. (Arduous, moderate, or light)

MR. B. F. ZUEHL, Dean of the Western Union College, produced records which indicated Applicant had been born on 7-13-15 at LeMars, Iowa; that he had entered the college in September, 1933, and had pursued a Liberal Arts course with a major in Economics, and had graduated therefrom on 5-31-37, receiving a B.A. degree. His average grade for the four years was "C plus". As to languages, Applicant had taken one year of French, receiving a grade of "C", and one year of Spanish, receiving a grade of "C". The records indicated that he had a very good attendance, and that no department action had been necessary at any time. MR. ZUEHL stated that Applicant came from a fine family, and that his father was an old employee of the United States Post Office at LeMars; that he was a good student, and while not brilliant, he was level-headed, seemed to have a purpose in view in attending school, paid attention to his business, and was able to get along with the instructors and fellow students; that he appeared to be a clean-cut, honest, upright, young man who did not have any bad habits; that his character and reputation had never been questioned, and his loyalty to this country was undoubtedly excellent. MR. ZUEHL stated he knew of no reason why Applicant should not be considered for the position sought.

Professor E. L. FIREVALD, professor of Economics, and DR. G. B. KEMPERS, history and political science instructor, informed they had had Applicant in their classes and considered him a very

fine young man. They furnished substantially the same information as DR. ZUEHL, and highly recommended him for the position sought.

SELECTIVE SERVICE

MISS MARIE PETRY, Plymouth County Selective Service Board, produced records which indicated that Applicant's order number was 1909; that his questionnaire had not been sent out, and at the present rate it would be sent to him within the next month.

BOWERS, Bowers Clothing Store, informed that he had known Applicant since he was a child; that he had worked part time for him as a clerk while he was attending Western Union College and had received from five to six dollars a week; that one summer he had also worked in the clothing store, and received a salary of \$75.00 a month. MR. BOWERS stated that Applicant's duties as salesman and office boy had been entirely satisfactory; that he knew that before he was employed as a clerk, he had carried newspapers, probably the Des Moines Register. However, this matter had been handled at Des Moines and he did not have any of the details. MR. BOWERS stated that he considered Applicant a very fine, upstanding, young man--one who he did not hesitate in the least to recommend for any position; that he was absolutely honest, upright and loyal. His character, reputation and morality had never been questioned, and he was the type of individual whom no one ever spoke a bad word against. MR. BOWERS stated he was very happy to recommend Applicant to the Bureau.

MR. G. MORSE HOORNEMAN, Plymouth County Attorney and practicing attorney, informed that he had known Applicant for several years; that when he finished law school in June, 1940, he had come back to LeMars to practice law. MR. HOORNEMAN had made an arrangement with Applicant whereby Applicant could practice law in LeMars and Remsen, a little town ten miles away, and could use MR. HOORNEMAN's offices in LeMars and Remsen. MR. HOORNEMAN stated there was no other financial arrangement made other than the fact that MR. HOORNEMAN would handle major cases which required more experience than Applicant had had. MR. HOORNEMAN stated that although Applicant had not had a great deal of experience in the practice of law, he was the type of individual who could assimilate knowledge and ideas, and had the makings of a good attorney; that he had conducted himself in a very exemplary fashion considering the lack of experience on his part. MR. HOORNEMAN stated that he considered Applicant a very fine young man, above the average in intelligence and ability, and one who was very hard working and industrious; that he knew of nothing against Applicant or any member of his family, and was very happy to recommend him to the Bureau.

MEMORANDUM FOR MR. GLAVIN

RE: CARL N. ^OFREYMAN

APPLICANT SPECIAL AGENT

Mrs. Jacobs has advised me that Freyman indicated on his application that he is acquainted with me. I furnished Freyman with an application blank in the late spring or early summer when I was assigned to the Des Moines Field Office. Freyman and I were both raised in Le Mars, Iowa, and I have known him since I was a boy. We went to high school, college and law school at about the same time, although Freyman was a couple of years behind me in school. He is a man of average intelligence, not particularly outstanding as a student. He is a hardworker, however, and would be conscientious on our job. He is a person of good character and I do not feel he would ever be a problem concerning his morals. Physically, he is a large young man and makes a neat and clean appearance. He wears glasses and I am not certain but would venture the opinion that his vision might be defective below our standards. I played football with Freyman in high school and know he is courageous and can take punishment. In this regard I might mention that he had a shoulder which would frequently be knocked out of joint in a very painful manner while he was playing. Freyman's father is a mail carrier of respectable reputation. His family is Catholic in religion. Applicant was employed at the Schneider Bowers Clothing Company, Le Mars, Iowa, a business competitor of a firm for which I was employed. I know Freyman was highly regarded by his employers and I think he is well thought of by most respectable people. He has been practicing law recently in Remsen, Iowa, and I feel that had it not been for the war he would have preferred to stay in private practice. On the other hand I do not believe he is a draft dodger, but would be sincere in thinking he could be of more service in the FBI. I doubt if Freyman would develop along administrative lines, but see no reason why he should not develop into a good average agent.

Respectfully,

Dal

THE FBI PLEDGE FOR LAW ENFORCEMENT OFFICERS

Humbly recognizing the responsibilities entrusted to me, I do vow that I shall always consider the high calling of law enforcement to be an honorable profession, the duties of which are recognized by me as both an art and a science. I recognize fully my responsibilities to defend the right, to protect the weak, to aid the distressed, and to uphold the law in public duty and in private living. I accept the obligation in connection with my assignments to report facts and to testify without bias or display of emotion, and to consider the information, coming to my knowledge by virtue of my position as a sacred trust, to be used solely for official purposes. To the responsibilities entrusted to me of seeking to prevent crime, of finding the facts of law violations and of apprehending fugitives and criminals, I shall give my loyal and faithful attention and shall always be equally alert in striving to acquit the innocent and to convict the guilty. In the performance of my duties and assignments, I shall not engage in unlawful and unethical practices but shall perform the functions of my office without fear, without favor, and without prejudice. At no time shall I disclose to an unauthorized person any fact, testimony, or information in any pending matter coming to my official knowledge which may be calculated to prejudice the minds of existing or prospective judicial bodies either to favor or to disfavor any person or issue. While occupying the status of a law enforcement officer or at any other time subsequent thereto, I shall not seek to benefit personally because of my knowledge of any confidential matter which has come to my attention. I am aware of the serious responsibilities of my office and in the performance of my duties I shall, as a minister, seek to supply comfort, advice and aid to those who may be in need of such benefits; as a soldier, I shall wage vigorous warfare against the enemies of my country, of its laws, and of its principles; and as a physician, I shall seek to eliminate the criminal parasite which preys upon our social order and to strengthen the lawful processes of our body politic. I shall strive to be both a teacher and a pupil in the art and science of law enforcement. As a lawyer, I shall acquire due knowledge of the laws of my domain and seek to preserve and maintain the majesty and dignity of the law; as a scientist, it will be my endeavor to learn all pertinent truth about accusations and complaints which come to my lawful knowledge; as an artist, I shall seek to use my skill for the purpose of making each assignment a masterpiece; as a neighbor, I shall bear an attitude of true friendship and courteous respect to all citizens; and as an officer, I shall always be loyal to my duty, my organization, and my country. I will support and defend the Constitution of the United States against all enemies, foreign and domestic; I will bear true faith and allegiance to the same, and will constantly strive to cooperate with and promote cooperation between all regularly constituted law enforcement agencies and officers in the performance of duties of mutual interest and obligation.

- (a) He is, or but for a seasonal or temporary interruption would be, engaged in such activity.
- (b) He cannot be replaced satisfactorily because of a shortage of persons with his qualifications or skill in such activity.
- (c) His removal would cause a material loss of effectiveness in such activity.

Composition of Class II.—(a) In Class II-A shall be placed any registrant found to be a "necessary man" in any industry, business, employment, agricultural pursuit, governmental service, or any other service or endeavor, or in training or preparation therefor, the maintenance of which is necessary to the national health, safety, or interest in the sense that it is useful or productive and contributes to the employment or well-being of the community or the Nation.

(b) In Class II-B shall be placed any registrant found to be a "necessary man" in any industry, business, employment, agricultural pursuit, governmental service, or any other service or endeavor, or in training or preparation therefor, the maintenance of which is essential to the national health, safety, or interest in the sense that a serious interruption or delay in such activity is likely to impede the National Defense program.

B. 2.

The Federal Bureau of Investigation has been designated as the sole civilian Government investigative agency, having jurisdiction over the investigation of matters pertaining to the national defense, that is, espionage, sabotage, registration of agents of foreign principals and the like. Further, the Federal Bureau of Investigation has sole investigative jurisdiction in a great number of other Federal statutes which embrace bank robbery, kidnaping, extortion, white slave traffic, the National Motor Vehicle Theft Act, and numerous others. The Federal Bureau of Investigation has also been designated by Congress as the agency officially responsible for the tabulation and dissemination of police statistics for the entire country. Under an Act of Congress these statistics are gathered and are distributed to thousands of interested police and affiliated agencies each quarter so that trends of crime, crime records, and crime control can be known to those to whom it is of most interest. Further than this, the Federal Bureau of Investigation has been designated as the agency having jurisdiction over the classification and maintenance of fingerprint records, not only on a national basis, but on an international basis. We have some thirty-one million sets of fingerprints on hand today. We are receiving the fingerprint records of all persons enlisted or being inducted into the Army and enlisted in other military services. Thousands of persons in public utility positions are fingerprinted and the prints are retained in our files. Those working in national defense industries on many occasions are fingerprinted, their prints being included in our files. Our Government employees' prints are included. We are receiving thousands of criminal fingerprints from all police agencies in the country daily and it is essential that we immediately be able to notify the arresting agency of the criminal record of the individual because he may be wanted for more serious crimes in other sections of the country and if he is to be released on a mere vagrancy or other charge, he may be set free to continue his depredations on society. This Bureau, together with many other foreign countries, participates in the international exchange of fingerprints. Hundreds of international crooks are brought to task yearly through the media of this service we have rendered.

Our Criminology Laboratory handles the scientific examination of evidence in cases investigated by the Federal and local law enforcement agencies. A great deal of their work is done in the examination of suspected sabotage cases at the present time. The scientists in that Laboratory have lectured throughout the country on bombs and explosives so that local police agencies may be adequately prepared to handle any such matters which might arise under their jurisdiction.

There are contained in our Files Section the files of hundreds of thousands of individuals whose activities are of the greatest importance to the country today. The work of the Files Section and the records of that section which have to do not only with the investigation of kidnaping, extortion, bank robbery, and like cases but also the investigation of our espionage, sabotage, foreign agent cases, and others, are of course accessible to employees working in that unit. It is most essential that only the most trusted employees be so assigned.

B. 5.

The work of the Federal Bureau of Investigation is of the utmost importance in the national defense. It is essential that thoroughly qualified personnel of the highest integrity and background be secured for every position in the Bureau. Our work is the guarding of the internal security of the country, not only in national defense matters, but in the control of those criminals who previously had terrorized the country in waves of bank robbery, kidnaping, extortion, white slavery, automobile theft, and numerous other crimes. There is no doubt whatsoever in the minds of law enforcement officials that should any group be permitted to have the assurance that their activities were being minimized during the present national emergency, we would have a tremendous country-wide wave of crime in that particular category in a very short period of time. It is, therefore, essential that from a national defense standpoint and from a public security standpoint the Bureau maintain its qualified staff at an absolute maximum in order to continue to have control of the criminal element under its jurisdiction.

I, J. Edgar Hoover, do solemnly swear (or affirm) that I am the Director of the Federal Bureau of Investigation and that the foregoing statements are true to the best of my knowledge and belief.

Subscribed and sworn to before me this 5th day of March, 1942.

B. 7. a. b. c.

The Federal Bureau of Investigation is primarily a service agency. We serve our Government and the public. We cannot determine the amount of work which is going to be referred to us. If there is a crime wave of local or national significance at any time the work of the Bureau is increased in comparison. Our identification, laboratory, and crime statistics facilities reflect very definitely the trends in the country. We must have available personnel to properly handle the thousands of fingerprint records being received by us daily. We are at the present time receiving approximately thirty-four thousand sets of prints daily. We must have a scientific staff in the laboratory to examine scientific evidence. We must have an investigative force of sufficient size to handle the work being referred to us. We must have a technical and supervisory staff of sufficient size to render the service to our investigative, identification, laboratory, and statistical staffs so that we may have the benefit of the wealth of information in our various files. The work of the Federal Bureau of Investigation has increased so tremendously that every employee in the Bureau, regardless of his position, is performing a tremendous amount of overtime service. Our Special Agent investigators are performing no less than four hours a day overtime service. In the present emergency we have found it necessary to curtail leave because of inadequate personnel and many of our men have worked over long periods of time without having any time off for vacation.

D. 1.

The additional duties imposed upon the Bureau since the declaration of the national emergency have made it necessary that our staff be more than doubled. From the information furnished under sub-heading B, it will be seen that it is essential to carefully investigate every employee in the Bureau. All of our employees in the performance of their work at one time or the other has opportunity to observe and note the content of confidential investigative reports, the publication of which would be most detrimental to the national safety. We have had considerable difficulty in securing sufficient employees. We find that out of applicants who file application, we are successful in appointing about one out of every one hundred. It, therefore, means that if we lose an employee after he is fully investigated and is being given training or has been experienced, we must again consider on an average, one hundred persons before he can be replaced. In the accelerated program of the Government it is essential that the Federal Bureau of Investigation work at top speed to keep abreast of its duties and investigation of matters pertaining to national defense, its regular activities, and its most important and essential identification activities at this time.

D. 5.

At the present time the Federal Bureau of Investigation is employing additional qualified persons as rapidly as they can be found. The assembled Congress has in the past several months passed several bills which will increase even to a greater extent our present volume of work. The needs of the service as to employees fluctuate with the periods of stress in the country.

D. 6. a.

Special Agents of the Federal Bureau of Investigation are given twelve weeks of training which embraces five hundred and thirty-five hours of study. During that period of time they are trained not only in investigative techniques and procedures but are qualified in the handling of firearms, mechanical devices, and technical devices in use by the Bureau. After entering the field service after training, their skill, of course, increases with their length of service in the field.

I, J. Edgar Hoover, do solemnly swear (or affirm) that I am the Director of the Federal Bureau of Investigation and that the foregoing statements are true to the best of my knowledge and belief.

CARL NICHOLAS FREYMAN
Special Agent
Interim Efficiency Rating

This supplements standard form Number 51, Report of Efficiency Rating, submitted for Agent FREYMAN under date of June 12, 1942.

This Agent entered on duty at the Training School for New Agents at Washington, D.C., on February 2, 1942. He reported at the Newark Office, his first office of assignment, on April 25, 1942. He is in Grade CAF 9 at \$3200 per annum, the entrance salary.

During the first week of his assignment at the Newark Office, Agent FREYMAN accompanied older, experienced Agents on investigations in the headquarters city and vicinity. Thereafter for a period of three weeks he worked out of the Resident Agency at Trenton, New Jersey, and during the past two and a half weeks has been working out of the Resident Agency at Red Bank, N.J. He has handled cases involving Applicants, Theft from Interstate Shipment, Internal Security, Alien Employment in Aircraft and Munitions Production, Sabotage, Selective Service, and National Motor Vehicle Theft Act.

In connection with the one Agents' Quarterly Conference which this Agent has attended at this office during the pertinent period, he received a grade of 90% on his examination and 99% on his notebook. In Technical Training, he received a grade of "Excellent" and in Photography he received a grade of "Above Average". During the May Firearms Training Period, this Agent received an average score with all firearms of 79.5%, which is below the average for the Agents of this office. It will be noted, however, that he handles himself in a satisfactory manner on the firearms range.

This Agent has attended five sessions of New Agents Training. He appears to be interested in the program. Agent FREYMAN has not apprehended any fugitives, been on any surveillances, or any assignments of a dangerous nature. He testified on one occasion at Moot Court in connection with New Agents' Training. He makes an acceptable witness. Agent FREYMAN has passed the New Jersey State automobile driver's license test. I have not had an opportunity to ride in an automobile driven by him. During the pertinent period, this Agent has performed an average of 4 hours and 56 minutes overtime per day, which is above the average for the Agent personnel of this office. He has not given a sufficient amount of dictation upon which to base an opinion. He uses the touch system on a typewriter and his rough draft material is good.

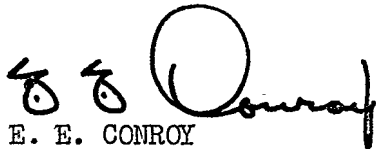

The reports of this Agent are above average for an Agent of his experience and reflect that his investigations have been conducted in a thorough and well organized manner. His reports require only an average amount of

supervision. Agent FREYMAN is a hard worker and has indicated a desire to perform his duties to the best of his ability.

This Agent dresses neatly and presents a good appearance. He possesses a somewhat quiet, but likeable personality. He is capable of representing the Bureau in a satisfactory manner. He is cooperative and amenable to criticism.

I have been satisfied with the services he has rendered.

CARL NICHOLAS FREYMAN
Special Agent
Interim Efficiency Rating

This supplements standard form Number 51, Report of Efficiency Rating, submitted for Agent FREYMAN under date of August 17, 1942, in view of his transfer from the Newark Field Office to the New York Field Office.

This Agent entered on duty at the Training School for New Agents at Washington, D.C., on February 2, 1942. He reported at the Newark Office, his first office of assignment, on April 25, 1942. He is in Grade CAF 9 at \$3200 per annum, the entrance salary.

During the pertinent period, this Agent worked for one week out of the Resident Agency at Red Bank, N.J., for three weeks out of the Resident Agency at Hackensack, N.J., for four weeks out of the Resident Agency at Camden, N.J., and during the past two weeks has been working out of the Resident Agency at Atlantic City, New Jersey. He has handled cases involving Applicants, Internal Security, Selective Service, Impersonation, Bankruptcy, Alien Employment in Aircraft and Munitions Production, Theft of Government Property, Miscellaneous Matters, Espionage, Plant Survey, National Motor Vehicle Theft Act, Sabotage, Red Cross Act, and Illegal Wearing of the Uniform. In addition, he has developed several plant informants and made several American Legion contacts.

There have been no Agents' Quarterly Conferences or Technical Training Conferences held at this office during the pertinent period. In connection with the firearms training periods held during June and July, this Agent received an average grade with all arms of 83.6%, which is about average for the Agents of this office. This Agent has completed his New Agents' Training.

During this period, Agent FREYMAN arrested two Selective Service violators and was on two surveillances for a total period of two days. He has been on no assignments of a dangerous nature. Agent FREYMAN has testified on a few occasions and it is believed he will develop into an acceptable witness. He has passed the New Jersey State automobile driver's license test, but I have not had an opportunity to ride in an automobile driven by him. During the pertinent period, Agent FREYMAN performed an average overtime of 5 hours and 25 minutes per day, which is considerably higher than the average for the Agents of this office.

Agent FREYMAN uses the touch system on a typewriter at approximately 40 words per minute. He does not have the ability to take shorthand. The rough draft material submitted by this Agent is invariably in neat form. He has

CARL NICHOLAS FREYMAN

not given a sufficient amount of dictation upon which to base an opinion.

~~This Agent conducts his investigations in an intelligent and logical manner. His reports are well written and require only average supervision. This Agent is very conscientious and handles a good volume of work.~~

Agent FREYMAN dresses neatly and presents a good appearance. He has a pleasing personality and makes a good impression on those with whom he comes in contact. This Agent is enthusiastic about the work of the Bureau, is amenable to supervision, and is willing and anxious to learn.

I have been satisfied with the services this Agent has rendered.

Local Board Number 1

Gentlemen:

Reference is made to the Selective Service status of Mr. Carl N. Freyman who is duly registered at your Board as Order Number 1909. You will recall that under date of March 5, 1942, D.S.S. Form 42-A was furnished to your Board requesting that he be granted occupational deferment, and as a result thereof, he was placed in Class II-B until September 26, 1942.

Mr. Freyman is still employed by the Federal Bureau of Investigation, and it has been impossible during the deferment period to effect any replacement for him. As you have been previously advised, he has been employed in this Bureau since February 2, 1942, and is a trained Special Agent. I desire to call your attention to Local Board Release Number 75, issued by General Hershey of National Selective Service Headquarters under date of December 29, 1941, advising your Board that the above listed position is one of the critical positions in this Bureau and requesting your cooperation in granting deferment whenever possible to do so. His removal for induction at this time would cause an impairment of the work we are now performing in order to guarantee the internal security of this country. I desire, therefore, to request that Mr. Freyman be granted additional deferment in Class II-B.

CARL N. FREYMAN Special Agent CAF 9
45-Day Efficiency Report as of October 4, 1942.

Since reporting at the New York Office, Agent Freyman has conducted investigations of Bureau applicants and national defense agency applicants, and has also assisted in alien spot searches and the apprehension of draft dodgers.

Agent Freyman is neat in appearance, is serious in his attitude toward his work, and indicates a good amount of enthusiasm with regard to his cases. He has turned out a satisfactory volume of work and is very conscientious with regard to making a good and complete investigation. He is amenable to discipline, has needed only the average amount of supervision and, in my opinion, is capable of planning his work well. He dictates satisfactorily, is a capable automobile driver, and has a good firearms record. Due to the nature of the work assigned to him, Agent Freyman has not been used on dangerous assignments, but it is believed that under proper supervision he could perform such duties to good effect.

On the whole, Agent Freyman has shown good progress in this office and is an average agent for the length of time he has been in the service.

REMARKS

At the conclusion of his training period, Mr. Clegg said he presented a satisfactory appearance; his class work was satisfactory, however, it was believed he would need more than average supervision in order to develop the most work; that he appeared to be no more than average seemed interested in the work and should develop with experience; and he needed additional attention on the PPC and .30 rifle. On 3/31/42 Mr. Clegg rated him FAIR.

On 4/25/42 he was assigned to the Newark Office. On 5/25/42 SAC Conroy said he presented a good personal appearance, spoke in a clear, distinct voice at a recent moot court session. On 6/12/42 SAC Conroy rated him GOOD and said his reports were above average for an agent of his experience; investigations were conducted in a thorough and well organized manner; that he dressed neatly, presented a good appearance; possessed a somewhat quiet, but likeable personality; and his services were satisfactory.

On 8/17/42 SAC Conroy rated him GOOD and said he conducted his investigations in an intelligent and logical manner; reports were well written and required only average supervision; and his services had been satisfactory. On 8/20/42 he was transferred to the New York Office.

On 10/4/42 Assistant Director Foxworth rated him GOOD and said he was neat in appearance, was serious in his attitude toward his work, turned out a satisfactory volume of work, was very conscientious with regard to making a good and complete investigation; that he had shown good progress and he was average for the length of time he had been in the service.

I recommend grade CAF-10 at \$3500 per annum.

Local Board Number 1
Selective Service System
Court House
LeMars, Iowa

Gentlemen:

Reference is made to the Selective Service case of Mr. Carl H. Freyman, who is duly registered at your Board as Order Number 1909. You will recall that as a result of my previous request for occupational deferment, he has been placed in Class II-B.

Mr. Freyman has been employed by the Federal Bureau of Investigation since February 2, 1942, and is performing duties as a Special Agent. In this position he possesses the necessary highly specialized training and knowledge so essential to the performance of his duties in connection with the successful war effort. His removal for induction at this time would substantially impair the essential work we are now performing to maintain that part of America's war effort and the preservation of the nation's safety and internal security assigned to this Bureau.

Your attention is called to the Executive order of the President dated March 6, 1943, providing for the occupational deferment of employees in the Executive branch of the Federal Government. By this order, requests for occupational deferment are limited to those holding "positions involving serious difficulty of replacement because a scarcity of available qualified personnel exists and the incumbent of the position must have had, in order to perform the duties effectively, an extended period of training or specialized experience." Section III, paragraph 2 c and d of that order, defines the criteria by which it will be determined that a request for occupational deferment shall be submitted for any employee; that is, that the work being performed is of a professional, semiprofessional or highly specialized character or that the work usually requires special training or physical abilities, including the occupation, among others, of investigator, or that replacement within necessary age limits is difficult.

in this work continually since February 2, 1942. He possesses the ability to undergo arduous physical activity which is so essential in work of this nature. Since there are no other organizations doing the type of work we must do, it is not possible to recruit experienced personnel. Personnel with the required physical, intellectual, educational and experience capabilities needed to perform our work is limited to men within age limits. A scarcity of such manpower does exist and replacement is most difficult. I desire, therefore, to request that Mr. Freyman be granted additional occupational deferment.

I appreciate your previous cooperation in this matter, and should there be any additional information you may desire with regard to this case, please do not hesitate to call upon me. Of course, I shall keep you promptly advised as to any change in the occupational status of this registrant.

CARL N. FREYMAN, SPECIAL AGENT.

Annual Efficiency Report as of March 31, 1943.

Agent Freyman entered on duty as a Special Agent February 2, 1942. Since August 20, 1942 he has been assigned to the New York Field Division. Previously he worked in the Newark Office. He is in grade CAF-10 at \$3500 per annum, effective December 1, 1942.

Freyman is neat, serious and enthusiastic. He is conscientious and performs a good and complete investigation with average supervision. He has a fair knowledge of the Spanish language which he has made use of in connection with his present assignment. He is quiet, perhaps a little too quiet, and needs more aggressiveness and polish. When he has obtained these I feel that he will become a better than average agent. In the recent examinations given during the inspection of the New York Office he received grades of 96 in the Manuals of Instructions and National Defense and 80 in the Manual of Rules and Regulations.

His dictation is satisfactory and his rough drafts are neat. He holds a driver's license for the State of New York. He has testified before a United States Commissioner and it is believed that he will develop into a satisfactory witness. He has also testified in open court prior to his being appointed an agent. He is qualified in the use of Bureau firearms but appears to be weak with the revolver and has not improved as much as might be expected. He observes all safety precautions. However, until his revolver shooting improves I feel that he is not yet ready for a dangerous assignment. He has had very little experience on physical surveillances. He has used the touch system in typing and a speed of forty words per minute has been attained by him. He does not take shorthand. His reports appear to be good and need only average supervision. In his first office of assignment he had a great deal of work in connection with law enforcement officials and his contact with business people appears to be entirely satisfactory, as is his ability to organize and initiate investigations.

He has worked on National Defense investigations, including Internal Security, Espionage, Sabotage, Neutrality matters and Alien Employment in Aircraft Factories. He has assisted in the searches of the exchange ships "Gripsholm" and "Drottningholm" and he has assisted in the pick-up of three alien enemies. His general and criminal investigations have included Restoration of Civil Rights, Applicants and miscellaneous.

Thus far he has not demonstrated any particular supervisory, administrative or executive ability.

364746-42
APR 6 1943
[Signature]

Since October 15, 1942 to the date of this report Agent Freyman has been assigned to a large technical surveillance being conducted by this office and his work in this respect has been satisfactory. He has average ability with technical equipment.

For the past six months his overtime daily average has amounted to two hours and forty-nine minutes, compared with an office average for the same period of time of two hours and fifty-five minutes. This places him in the middle group of the agent personnel of this office as far as overtime is concerned.

His knowledge of the Spanish language while only fair could undoubtedly be used as a basis for additional training should it be desired to place him on an SIS assignment. I feel that he should have more experience in the investigation of violations within the Bureau's jurisdiction in this country, however, before being considered for such an assignment. In addition he is not particularly interested at this time in an assignment of this nature.

SUPERVISOR J. KIRKLAND:

Agent Freyman has been assigned to Sutes for about four months and his work in this respect is entirely satisfactory. He is willing and cooperative. However, he still needs considerable experience. He has been in the field just about a year, working in Newark before coming to New York. There he worked principally at various resident agencies. He can type with the touch system at 40 words per minute. He is an average automobile driver. He has testified before a Commissioner and at moot court. He has done some work on plant informants and American Legion Contacts. Freyman needs to acquire a little more aggressiveness. He has a fair knowledge of Spanish which he is using on his current assignment. He is quiet and on the whole makes a good impression. He is qualified in the use of Bureau weapons but is somewhat weak in the PPC. He has exhibited no administrative or executive ability. He failed one of the inspection examinations.
Status: GOOD

FIREARMS INSTRUCTORS: H. G. FOSTER, et al.

On October 20, 1942 this Agent was observed firing the first winter firearms courses. His qualifying score on the rifle was average. He appears to be Average in his ability to handle the prescribed courses, was amenable to instructions and observed the safety precautions. The instructors failed to note anything to indicate that this Agent would be unsuited for the use of Bureau firearms in a dangerous situation.

INSPECTOR ACERS:

This Agent is neat, clean, quiet, polite, tall and somewhat scholarly in appearance. He is conservative in dress and mature for his years. He is 27 years of age. He is married. He has no children. His Selective Service classification is 2-B. He has testified before Grand Juries on two occasions and before the U.S. Commissioners on two occasions. He has never testified before the Federal Court. He would improve himself if he developed more force and aggressiveness. He has developed and should continue to do so along investigative lines.

MEMORANDUM FOR THE DIRECTOR

Re: SUTEC - NEW YORK OFFICE

In connection with the organization and operation of Sutee in the New York Office, the following is a summary of pertinent information set forth in a memorandum dated May 31, 1943, for Special Agent in Charge Conroy, and included in the Inspection Report dated June 14, 1943, of Assistant Director E. J. Connelley.

Supervisor: James M. Kirkland (Desk #25)

Nature of Work: The principal work is the maintenance of the Confidential Plant in which is centralized various monitoring activities carried on by the New York Office, installations and servicing of all technical plants, the maintenance of the Sound Room, and the maintenance of technical equipment and various technical installations, as well as the radio truck. Approximately 20,000 to 25,000 calls per month are handled. There are in operation approximately 61 lines and 20 recorders (usually 3 recorders are used to operate 10 lines). In addition to the major technical plant maintained, there are generally 12 to 15 other plants in operation in outside locations.

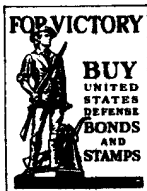

A number of languages are encountered in addition to English, viz., Spanish, German, French, Hungarian, Jewish, and Dutch.

Work Shift: The regular work shift is from 9:00 A.M. to 6:00 P.M.; 3 men are assigned to duty from 9:00 A.M. to 9:00 P.M.; 2 men are assigned from 9:00 P.M. to 9:00 A.M.; 2 men are assigned for Sunday duty from 9:00 A.M. to 9:00 P.M.; the balance of the Agents indicated are assigned to the 9:00 A.M. to 6:00 P.M. shift.

Personnel:

Mr. Connelley, on Page 108 of the Inspection Report, states that there are 25 men assigned to this operation; however, from the persons listed therein, it appears that there are only 23 men engaged in this work. Of the 23 men assigned to this operation, 18 are Special Agents (this includes Supervisor Kirkland); 4 are Special Employees, and 1 is a Translator. Including Supervisor Kirkland, the 17 Agents so assigned have been working on this operation for the following periods of time:

67-72-3753

I. 6 months or less

1. Robert S. X Kelly (5 months)
2. [redacted] (5 months)
3. [redacted] (5 months)
4. J. F. X Hennessy (6 months)

b6
b7C

II. More than 6 months—less than a year

5. [redacted] (8 months)
6. [redacted] (A) (8 months)
7. [redacted] (9 months) - Communist matters
8. C. N. X Freyman (9 months)
9. C. E. X Jones (9 months)
10. [redacted] (10 months)
11. [redacted] (A) (11 months) - Communist matters.

III. More than a year—less than 18 months

12. [redacted] (A) (13 months) - Communist matters
13. H. H. X Finzel (15 months) - Communist matters
14. [redacted] (16 months)
15. O. M. X Hughes (A) (18 months)
16. [redacted] (18 months)
17. [redacted] (18 months)

Thus, 4 Agents have been so assigned 6 months or less; 7 Agents, more than 6 months and less than a year; 6 Agents, more than a year and less than 18 months.

Inspector's Opinion: The Inspector feels that, as is readily apparent from the above, a number of these Agents have been on this type of assignment for a long period of time and that their investigative techniques have undoubtedly suffered accordingly. He further feels that due to the importance of this assignment, it is essential that a number of these men be maintained on the plant for a considerable period of time as they are familiar with conditions and with the equipment. The Inspector called this situation to the attention of Special Agent in Charge Conroy in order that some program might be worked out whereby these Agents would be assigned to this type of work for a limited period of time consistent with the accuracy of the operation and the availability of personnel for this type of work and in order to work out the necessary training for these men where they are retained on this type of work for a long period of time.

Special Agent in Charge
Conroy's Remarks:

In his memorandum of June 15, 1943, to Mr. E. J. Connelley, which is contained in the New York Inspection Report dated June 14, 1943, Mr. Conroy, in dealing with this matter, stated that Agents [] Kelly, and [] have since been transferred from Sutech and that it is planned to transfer Agents Finzel, Hennessy, and C. E. Jones from Sutech in the near future. Mr. Conroy also points out that Agents [] [] [] Hughes, [], and [] are trained sound men and because of their training and experience it is believed desirable that they remain at the Sutech Plant. He also advises that in accordance with the instructions of Inspector Connelley, he will follow the procedure of replacing the personnel on the Sutech Plant at regular intervals wherein such replacements can be made without affecting the operating efficiency of Sutech.

Mr. Freyman is a Special Agent and as such holds a key position as designated by the Review Committee of the War Manpower Commission within the meaning of Executive Order 9309. The performance of his duties is essential and critical to the execution of the work assigned by law and Executive Directive to the Federal Bureau of Investigation.

To the Federal Bureau of Investigation is assigned the responsibility of investigating all acts of espionage, sabotage and all actions tending to undermine the internal security of the nation. We must also investigate and enforce all those federal statutes assigned to the investigative jurisdiction of this Bureau such as: bank robbery, kidnaping, interference with the interstate transportation of goods, National Stolen Property Act, White Slave Traffic Act, etc., the enforcement of which is necessary to the preservation of the national health, safety and interest.

To carry on this work it is necessary to maintain a corps of trained investigators. Mr. Freyman is such a trained investigator. In the attached Form 42 B further information relative to Mr. Freyman is set forth.

The Federal Bureau of Investigation has been designated as the sole civilian government investigative agency having jurisdiction over the investigation of matters pertaining to national defense such as espionage, sabotage, registration of agents of foreign principals, sedition, treason, and the like, and further, the Federal Bureau of Investigation has sole investigative jurisdiction in a great number of other Federal statutes which embrace bank robbery, kidnaping, extortion, white slave traffic, National Motor Vehicle Theft Act, and numerous others. The investigative work in connection with the above violations is performed by the Special Agent personnel of this Bureau, who are recruited from applicants between the ages of twenty-five and forty. They must be graduates of a law school or an accounting school with the necessary accounting experience, or graduates of a university with extensive investigative experience, or with linguistic qualifications, or have basic educational training and possess satisfactory prior law enforcement experience which will enable them to satisfactorily perform the duties imposed upon them. For certain of the scientific investigative work, Special Agents are secured who primarily are qualified in the sciences, such as ballistics, chemical analysis, spectography, cryptography, mineralogy, metallography, toxicology, and other like sciences. Applicants for appointment to the position of Special Agent must meet the physical standards and requirements for this position, which are exceedingly high. They must have vision of no less than 20/40 in one eye, 20/50 uncorrected, both eyes to be corrected to 20/20. They must have no color deficiency whatever.

Special Agents of the Federal Bureau of Investigation undergo a rigorous training program. All newly appointed Special Agents in the Federal Bureau of Investigation attend training classes for a period of sixteen weeks; the hours of training are from 9:00 a.m. to 9:00 p.m. daily, which course of study is equivalent to two full years of college study. During this period of training, they are thoroughly instructed in the basic rules and regulations and jurisdictions of the Federal Bureau of Investigation. They must satisfactorily pass numerous written examinations during their period of training. If a trainee fails to pass any of these examinations, he is dropped from the school.

The duties of a Special Agent of the Federal Bureau of Investigation are most arduous. They must be available at a moment's notice to go to any part of the United States or to any assignment outside the United States. The hours of duty for these employees are such that they must be in excellent physical health. The average work week for a Special Agent of the Federal Bureau of Investigation is no less than seventy hours. The work of a Special Agent, regardless of his particular qualification, is such that he cannot lead a sedentary or well regulated life. Due to the small number of Special Agents of the Federal Bureau of Investigation presently handling the work under the jurisdiction of the Federal Bureau of Investigation within and without the continental United States, it is necessary that the entire staff be highly mobile.

Special Agents are required to be able to conduct investigations in more than 100 types of cases, including espionage, sabotage, subversive activities, frauds against the government, kidnaping, extortion, bank robbery, White Slave

Traffic Act, etc. They are trained in and required to maintain constant skill in the use of highly technical equipment, technical processes, such as those necessary for the development of latent fingerprints, concealed or obliterated numbers upon firearms, to understand the use of code messages, to conduct physical surveillances of subjects of espionage and similar cases, sometimes for periods of many months, and when necessary, to assume a necessary character to enable them to fit in an undercover capacity into the activities and operations of groups such as foreign agents, who are engaged in thwarting the war effort.

The arduousness and importance of the work of Special Agents of the Federal Bureau of Investigation was readily recognized by the military and naval leaders. The Chief of the Bureau of Navigation, for the Secretary of the Navy, requested Special Agent employees of the Federal Bureau of Investigation to submit their resignations from reserve commissions held by them in the naval services because it had been determined that those Special Agents could better serve their country in their present assignments than if they were to be called into active naval service. The Secretary of War, in 1942, addressed personal communications to 168 Special Agents of the Federal Bureau of Investigation who at that time held reserve commissions in the Army. The Secretary of War at that time advised the Special Agents that their employment in the FBI is of such vital importance to the national defense as to necessitate their remaining at their posts of duty despite the fact that they held reserve commissions in the United States Army, and the request was made that these Agents, through the proper channels, submit their resignations from their commissions.

General Lewis B. Hershey of the Selective Service System pointed out in his Directive to all Local Boards of December 29, 1941, that Special Agent positions of the FBI were most important and essential to the national health, safety, and interests, and that the national defense functions of the FBI should not be impaired by the removal of trained personnel from critical positions in the Bureau.

The position of Special Agent has always been considered the most critical of all positions in the FBI, since, with the tremendous bulk of work placed upon us due to the war emergency, it is essential that a trained qualified staff be available for the handling of this work. If the Federal Bureau of Investigation cannot continue to retain its personnel in this critical position, aid and comfort would most certainly be given to the enemy and others whose interests are inimical to the best interests of the country today.

I, J. Edgar Hoover, do solemnly swear (or affirm) that I am the Director of the Federal Bureau of Investigation and that the foregoing statements are true to the best of my knowledge and belief.

N.
SPECIAL AGENT CARL E. FREYMAN, CAF 10
ANNUAL EFFICIENCY RATING AS OF MARCH 31, 1944

Agent Freyman entered on duty as a Special Agent on February 2, 1942 and since August 20, 1942 he has been assigned to the New York Field Division. Previously, he has worked in the Newark Office, this being his second office of assignment. He is in Grade CAF 10 at \$3,500 per annum, effective December 1, 1942.

Agent Freyman is a mature and serious minded individual, neat in his appearance and dress and enthusiastic in his attitude towards his work. He is conscientious and performs a good and complete investigation with only average supervision. He has a good personality and makes a favorable impression as a representative of the Bureau. In a previous report I commented that he was perhaps a little too quiet and needed to develop an aggressiveness. Since this report I feel that this agent has made distinct advance upon this line and now may be considered sufficiently aggressive.

His dictation is satisfactory. He holds a driver's license for the State of New York and has had no difficulty in handling Bureau automobiles. He is qualified in the use of all Bureau weapons and his ability to handle them is good, with the exception that he is slightly weak in the practical pistol course. He is attentive and alert to safety instructions and I know of no reason why he could not be given dangerous assignments. His only testimony within the period covered by this report has been at moot court training, which he attended on November 12, 1943 and at which he received a rating of good. Previously, however, he has testified before United States Commissioners and before entering the Bureau has had experience in both State court testimony and the actual trial of criminal cases. He has had very little experience on physical surveillances. He uses the touch system in typing at a fairly rapid rate. He does not take shorthand. He has had considerable experience in dealing with law enforcement officials and his business contacts appear to be satisfactory, as is his ability to organize and initiate investigations. He accepts responsibility properly and his work requires a minimum of supervision.

During most of the time covered by this report Agent Freyman has been assigned to the major technical surveillance being conducted by this office, having originally been so assigned on October 22, 1942. Recently, however, he has had approximately one month of liaison duty in this office and while so assigned has handled general security matters. His work while assigned to the technical surveillance has been entirely satisfactory and he has shown considerable initiative in a particular phase of the assignment wherein a knowledge of the Spanish language has been necessary. His ability to handle the Spanish language has improved considerably within

the past year and he may be regarded as thoroughly proficient in this respect. He has participated, within the year, in the apprehension of two fugitives and approximately a dozen selective service violators. While I have not had an opportunity to observe any particular supervisory or administrative ability, it is believed that Freyman may have some latent ability along these lines.

It is my feeling that Freyman is developing properly into an above average agent and I feel he is entitled to a rate at this time of very good, within Grade CAF 10.

SPECIAL AGENTS

This position has been designated as a key position by the Review Committee of the War Manpower Commission.

The Federal Bureau of Investigation has been designated as the sole civilian government investigative agency having jurisdiction over the investigation of matters pertaining to national defense such as espionage, sabotage, registration of agents of foreign principals, sedition, treason, and the like, and further, the Federal Bureau of Investigation has sole investigative jurisdiction in a great number of other Federal statutes which embrace bank robbery, kidnaping, extortion, white slave traffic, National Motor Vehicle Theft Act, and numerous others. The investigative work in connection with the above violations is performed by the Special Agent personnel of this Bureau, who are recruited from applicants between the ages of twenty-five and forty. They must be graduates of a law school or an accounting school with the necessary accounting experience, or graduates of a university with extensive investigative experience, or with linguistic qualifications, or have basic educational training and possess satisfactory prior law enforcement experience which will enable them to satisfactorily perform the duties imposed upon them. For certain of the scientific investigative work, Special Agents are secured who primarily are qualified in the sciences, such as ballistics, chemical analysis, spectography, cryptography, mineralogy, metallography, toxicology, and other like sciences. Applicants for appointment to the position of Special Agent must meet the physical standards and requirements for this position, which are exceedingly high. They must have vision of no less than 20/40 in one eye, 20/50 uncorrected, both eyes to be corrected to 20/20. They must have no color deficiency whatever.

Special Agents of the Federal Bureau of Investigation undergo a rigorous training program. Appeal Procedure

Any person entitled to do so may take an appeal to the board of appeal within 10 days after the above date of mailing of Notice of Classification to registrant in either of the following ways:

- (1) By filing with the local board a written notice of appeal. Such notice need not be in any particular form but must state the name of the registrant and the name and identity of the person appealing so as to show the right of appeal.
- (2) By signing the "Appeal to Board of Appeal" on the Selective Service Questionnaire (Form 40).

The person appealing may attach to his notice of appeal or to the Selective Service Questionnaire (Form 40) a statement specifying the respects in which he believes the local board erred, may direct attention to any information in the registrant's file which he believes the local board has failed to consider or give sufficient weight, and may set out in full any information which was offered to the local board and which the local board failed or refused to include in the registrant's file.

Appeal to the President from classification by the board of appeal may be taken at any time within 10 days after the date of mailing of notice to registrant, provided the registrant was classified by the board of appeal in either Class I-A, Class I-A-O, or Class IV-E and one or more members of the board of appeal dissented from such classification. Otherwise, the decision of the board of appeal is final except when an appeal is taken to the President either by the State Director of Selective Service or the Director of Selective Service on the ground that he deems it to be in the national interest or necessary to avoid an injustice.

COMMENTS:

Agent Freyman has been assigned to the technical surveillance known as Sutee since October 22, 1942. He has a quiet, dignified personality and is very conscientious and thorough in his work. He has a good knowledge of the Spanish language and this ability is extensively used on his present assignment. He has had general investigative experience and has conducted his investigations in a satisfactory manner. His ability to testify is good. He can accept responsibility and shows a satisfactory degree of initiative. He appears to have latent administrative ability. Status - Very Good.

INSPECTOR HARBO

Agent Freyman is 29 years of age, married, and has been admitted to the practice of law in the State of Iowa. He is tall, dresses neatly, and presents an entirely satisfactory personal appearance. He has a quiet, studious type of personality and yet appears to be possessed of sufficient force and aggressiveness. His testimony has been limited to appearances before Grand Juries, United States Commissioners and Moot Court. For a period of 22 months he has been assigned to a technical surveillance in the New York Office, handling, in the main, Spanish matters, it being noted that he understands Spanish readily and has a speaking acquaintance with the language. This man appears to be the conscientious, sincere type who can be depended upon to perform in an entirely satisfactory fashion. In view of his extended period on Sutee, it is felt that every consideration should be given to providing him a more general investigative experience, as soon as the exigencies of his present assignment will permit. This agent appears to be loyal and may be possessed of latent supervisory ability. Status: Very Good.

Re: CHANGE OF ASSIGNMENT OF AGENTS
AFTER SIX MONTHS PERIOD ON ONE
TYPE OF INVESTIGATION

Dear Sir:

Mr. Magowan

Reference is made to the assignment of Special Agent Carl N. Freyman to the Sutech Section of the New York Office. Agent Freyman has been so assigned continuously since October, 1942 with the exception of a one month assignment to liaison duty in the New York Office. He is handling at the present time all technical informants dealing with the Nationalist Party of Puerto Rico.

In the assignment he has become very familiar with the background of the individuals under investigation, the sound of the voices and their personal habits insofar as revealed by the technical informants. In addition,

Agent Freyman is currently the only agent assigned to Sutech who can handle the Spanish language and such ability is imperative to the efficient handling of the matter to which he is currently assigned.

Since the transfer of Agent Freyman would be extremely detrimental to the efficient handling of this investigation he will be retained in his present assignment unless the Bureau advises to the contrary.

Annual
~~██████████~~ AGENT CARL N. FREYMAN

SPECIAL EFFICIENCY REPORT

This *annual* ~~██████████~~ efficiency report is being submitted in view of Agent Freyman's transfer to the Chicago Field Division.

Agent Freyman entered on duty as a Special Agent on February 21, 1942. He was first assigned to the Newark, N. J. office and has been assigned to the New York Office since August 20, 1942. He is in Grade CAF-11 at \$3800 per annum, effective June 1, 1944.

Agent Freyman is a mature individual, presents a neat appearance and has an enthusiastic attitude towards his work. His work requires an average amount of supervision. He has a pleasing personality and makes a good impression on persons with whom he comes in contact. It is believed that he is capable of favorably representing the Bureau. He has sufficient aggressiveness to handle his work in a competent manner.

His dictation has been satisfactory. He holds driver's license in the State of New York and can handle Bureau automobiles efficiently. He is qualified in the use of all Bureau weapons. He is attentive to safety rules and instructions and I have observed nothing to indicate that he should not be given dangerous assignments. He is well-built, in good health and is physically capable of undertaking arduous and strenuous work. He has received moot court training and his ability to testify has been rated as good. He has testified before United States Commissioners and before entering the Bureau, he had experience in testifying and actual trial of criminal cases in State courts. During the most recent inspection of the New York Office, he received a grade of 100% in his written examination.

He has had very little experience on physical surveillances. He uses the touch system in typing and attains a fairly rapid rate. He does not take shorthand. His ability to initiate and organize investigations is satisfactory; he accepts responsibility properly and is amenable to discipline.

Since October 22, 1945, Agent Freyman has been assigned to the major technical surveillance being conducted by this office. During this period he has had one month of liaison duty, involving the handling of general security matters. His work while assigned to the technical surveillance has been highly satisfactory. He has applied himself to his duties and has indicated a willingness to accept responsibility and work long hours whenever necessary. He has exceptional ability to handle the

Spanish language and this knowledge has been used extensively on his present assignment. Since his assignment to this office he has participated in the apprehension of two fugitives and approximately a dozen selective service violators. While I have had no opportunity to observe any supervisory or administrative ability, I believe that Agent Freyman may have some latent ability along these lines.

It is my feeling that Agent Freyman may be considered to be above average and I believe he is entitled to a rating of VERY GOOD within Grade CAF-11.

REMARKS: Interviewing Official: A. E. Leonard *al*

8 DEC 30 1945

This man is 30, married, and his wife is expecting their first child in February, 1946. He makes a good appearance and expresses himself well. He is happy in his present assignment in Chicago.

On January 30, 1945 he requested a transfer to the vicinity of La Mars, Iowa due to the critical condition of his wife's father. This transfer was made and his appreciation was expressed in his letter of February 9, 1945 at which time he indicated he would advise the Bureau when the condition of his wife's father was such that he would be available for transfer. During this interview he pointed out that his wife's father's condition has greatly improved and he would like the record to reflect that he is available for transfer to any office where his services in the Bureau are desired. He likes his present assignment in Chicago very much.

CARL N. FREYMAN, Special Agent

This agent makes a very neat and business-like appearance. He possesses a friendly and agreeable personality. He displays above average initiative and resourcefulness and exercises sufficient force and aggressiveness in the performance of his duties.

He is a very good dictator. He operates an automobile in a competent fashion. He has testified in Federal court and demonstrated that he is a capable Government witness. He is qualified in the use of all Bureau firearms and could be used on dangerous assignments. He has operated successfully on physical surveillances. He has a fair degree of proficiency as a typist but does not take shorthand.

His reports are well written. They reflect unusually intensive, detailed and intelligent investigation and require only a minimum number of corrections. The volume of his work, when considered from the viewpoint of quantity and quality, is far above average. He makes worthwhile contacts with law enforcement officers and business people. He possesses the ability to organize his work without profuse advance instructions and to follow through to a logical conclusion. He is at all times willing to accept responsibility and discharges same in a capable manner. He is intensely interested in his work, never lets down in his effort to complete his assignments, puts in considerable voluntary overtime, and can be considered a very loyal, conscientious and valuable Bureau employee. He is in good health and physically capable of performing any duties which may be assigned to him.

During the period covered by this report, Agent FREYMAN has been assigned to the investigation of Deserter and Selective Service cases and has a complete and well-rounded knowledge of these violations, which enables him to handle any type of case arising within these classifications.

✓ This agent has not demonstrated that he possesses more than average supervisory ability. However, it is to be noted that he has had no opportunity to demonstrate same other than in the handling of his own cases, which he has done in a thoroughly competent manner.

CARL H. FREYMAN, Special Agent

Special Agent FREYMAN makes a neat and businesslike appearance, possesses a friendly and agreeable personality, and displays average initiative and resourcefulness, and exercises sufficient force and aggressiveness in the performance of his duties.

He is rated a very good dictator and operates an automobile in a competent fashion. Agent FREYMAN has testified in federal court and demonstrated that he is a capable Government witness. He is qualified in the use of all Bureau firearms, can be used on dangerous assignments, and operates successfully on physical surveillances. He is a fair typist but does not take shorthand.

Agent FREYMAN's reports are well written reflecting intensive, detailed, and intelligent investigation and require only a minimum number of corrections. The volume of his work is far above average. He makes worthwhile contacts with law enforcement officers and business people. Agent FREYMAN possesses the ability to carefully organize and follow through to a logical conclusion each investigation. He is at all times willing to accept responsibility and discharges same in a capable manner. He is unusually enthusiastic in his work, extremely conscientious and tireless in his assignments, and is considered a most loyal, conscientious, and valuable Bureau employee. He is in good health and physically capable of performing any duty which may be assigned to him.

During the period covered by this report Agent FREYMAN has been assigned to the investigation of Leseater and Selective Service cases and has a complete and well-rounded knowledge of these violations which enables him to handle all types of cases arising within these classifications.

This agent has not demonstrated more than average supervisory ability; however it is to be noted that he has had no opportunity to demonstrate same other than in the handling of his own cases which he has done in a thoroughly competent manner.

This agent is being rated as EXCELLENT.

SELECTIVE SERVICE, CONSPIRACY

In connection with the captioned investigation which was recently completed and resulted in a conviction of [REDACTED] I should like to call to the attention of the Bureau the fine work of SA CARL N. FREYMAN of this office.

From the outset of this investigation, the completion of which took over one year, Agent FREYMAN handled almost exclusively the numerous interviews with witnesses, the securing of hundreds of exhibits and virtually all investigative work in connection with the development of this case. Agent FREYMAN voluntarily worked many Sundays and numerous evenings giving of his free time and making other personal sacrifices and succeeded in developing, in my opinion, virtually an ironclad case against [REDACTED]. I recently received a letter from the United States Attorney commenting on Agent FREYMAN's work in this case.

It is suggested that a letter of commendation from the Director be forwarded to Agent FREYMAN.

CARL N. FREYMAN, SPECIAL AGENT

Freyman presents a good appearance, dresses neatly and conservatively, has a friendly and pleasant personality, and has demonstrated that he has sufficient force and aggressiveness for the Bureau's work.

TS
He is rated as an excellent dictator, has successfully testified in Federal Court, is well qualified in the use of all Bureau weapons, and because of his good judgment and good health can be used successfully on dangerous assignments. He has operated with excellent results on physical surveillances. During the rating period he has been assigned to the Security Squad, where he investigates cases pertaining to Communist individuals, matters pertaining to the Loyalty Program, and has assigned to him the case on the International Workers Order, a Communist front group. He has shown a definite interest in this type of work, has quickly acquainted himself with Communist activity in this district, and his reports, which show excellent investigation, contain a minimum of errors and require a minimum of supervision. This agent is conscientious, loyal, and cooperative at all times. He has ability to initiate and investigate cases and follow them through to a logical conclusion without constant supervisory attention. He is available for both special and general assignment.

He has had no opportunity to demonstrate any special administrative ability, but it is believed in view of the handling of his own work that he has latent ability in this regard.

He should be rated as excellent.

UNITED STATES DEPARTMENT OF JUSTICE
FEDERAL BUREAU OF INVESTIGATION
CHICAGO 90, ILLINOIS
April 14, 1949

DIRECTOR, FBI

RE: CARL N. FREYMAN
SPECIAL AGENT

Dear Sir:

The Bureau's attention is directed to the report of the captioned Special Agent on April 14, 1949, entitled [redacted] aka. [redacted] Temporary substitute Mail Handler - Appointee, Post Office Department, New York, New York, LOYALTY OF GOVERNMENT EMPLOYEES."

b6
b7C

This investigation was predicated upon a teletype from the New York Office dated March 15, 1949, requesting the Chicago Office to check the records of the Wilson and Bennett Steel Construction Company, inasmuch as Selective Service records, New York City, reflected appointee was employed by that company from 1933 to 1939. Appointee was reported to have signed a Communist Party nominating petition in 1945.

Investigation by captioned agent disclosed that the Inland Steel Container Company, formerly known as the Wilson and Bennett Manufacturing Company, had employed one [redacted] from July to August, 1933. The New York Office was requested to furnish background information concerning the appointee to determine if he was identical with the [redacted] employed by this company. Marriage records, employments, credit and criminal checks, as well as checks with informants in Chicago, were made regarding appointee, with negative results. Later investigation disclosed that the [redacted] employed by this company in 1933 was not identical with the appointee.

By letter of March 22, 1949, the Bureau furnished an identification record for [redacted] indicating that he had been arrested by the Chicago Police Department as [redacted] in February, 1933, on general principles. Agent FREYMAN then returned to the above mentioned company and ascertained that one [redacted] whose wife was [redacted] had been employed by this company. The original teletype from the New York Office indicated that appointee's wife was [redacted]. Company records indicated that [redacted] advised the company that her husband was "in trouble" and requested his pay. The records further contained a notation dated February 3, 1939, reflecting [redacted] had been charged [redacted]. No

b6
b7C

Director, FBI, 4-14-49

Agent FREYMAN then contacted the Chicago Police Department, Bureau of Criminal Identification, which records failed to reflect that [redacted] was wanted [redacted]. The agent then contacted the Homicide Detail, Chicago Police Department, and ascertained that a Cook County Coroner's Jury had returned a verdict of a charge of [redacted]. It was further ascertained that no stop notice had been placed by the Homicide Detail with the FBI or Chicago Police Department, Bureau of Identification.

Agent FREYMAN then secured a picture of [redacted] from the Chicago Police Department and presented this picture to a witness who was acquainted with [redacted] and who identified [redacted] as the individual wanted for the murder of [redacted]. This photograph was then sent to the New York Office to ascertain if the individual in the photograph known as [redacted] was in fact the appointee. The New York Office determined that [redacted] was identical with [redacted] and this information was furnished to the Chicago Police Department, who in turn secured an indictment, which was returned by the Cook County Grand Jury, Cook County, Illinois, on April 5, 1949, charging the appointee with [redacted].

b6
b7c

Thereafter, the Chicago Police Department made a suitable request for assistance under the Unlawful Flight Statute to the Chicago Division. An appropriate complaint was filed before the United States Commissioner, Chicago, pursuant to instructions of the U. S. Attorney, Chicago, and thereafter, based on process issued in connection with these proceedings, the New York Office apprehended the appointee on April 12, 1949. The appointee on the same date in a signed statement admitted [redacted] and was arraigned before the U. S. Commissioner in the Southern District of New York and held on \$10,000 bail pending extradition.

It is my recommendation that because of the complete and thorough investigation afforded this matter by the captioned agent, a letter of commendation be sent to him for his investigation in this matter.

Very truly yours,

G. R. McSwain
Special Agent in Charge

Dear Mr. Freyman:

The very efficient manner in which you assisted in the investigation of a recent involved Loyalty of Government Employees case has been brought to my attention.

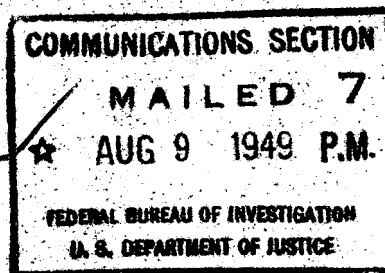

The successful results attained in this case would not have been accomplished without the determination and devotion to duty which you manifested and you may well be proud of your material contribution.

CARL N. FREYMAN
Special Agent

Freyman presents a good personal appearance, dresses in a neat, conservative manner, has a very good personality, and has sufficient force and aggressiveness for the Bureau's work.

He is rated as an excellent dictator, is well qualified in the use of all Bureau weapons, and can be used on dangerous assignments. He is in good physical condition. I have used him with excellent results on physical surveillances and his contacts with the general public and law enforcement officials have been excellent.

During the rating period, he has been assigned to the Security Squad, where he investigates Communist individuals and Communist front groups. He has done excellent work in this respect and has a good grasp of Communism in this district. His investigations are logical and thorough, and his reports and paper work are carefully prepared and need a minimum of supervision and correction. He has ability to initiate and organize investigations and is willing to accept responsibility and discharge same without supervision. This Agent is loyal and thorough and has rendered a great deal of overtime work for the Bureau without thought of compensatory leave.

In a monthly inspection examination by the Chicago Division, under date of July 19, 1949, in connection with the case entitled [redacted] Internal Security - C, Bureau File 100-41669", the Inspector noted that a photograph of subject, a key figure, was submitted to the Bureau in 1945. The Bureau was notified at that time that an attempt would be made to secure a better photograph. The latest investigative report of Agent Freyman, dated June 8, 1949, just prior to the inspection, did not contain a lead to secure a better photograph. A photograph was subsequently obtained by Agent Freyman and submitted to the Bureau.

b6
b7c

By letter dated April 27, 1949 and by letter dated August 8, 1949, the Bureau commended this Agent for the manner in which he investigated cases assigned to him.

Agent Freyman is available for both general and special assignment. He has had no opportunity to demonstrate any special administrative or executive ability.

He should be rated as excellent.

OFFICE MEMORANDUM * UNITED STATES GOVERNMENT

DATE: August 1, 1949

FROM : R. W. Wall

b6
b7C

SUBJECT: [REDACTED] aka

Janitor
Civil Aeronautics Administration
Department of Commerce
Orchard Place Airport
Park Ridge, Illinois
LOYALTY OF GOVERNMENT EMPLOYEES

PURPOSE:

To recommend letters of commendation for Special Agents J. Baird Reynolds, John F. Glenville and Carl N. Freyman for outstanding investigation.

BACKGROUND:

A full field Loyalty investigation has been conducted in the captioned case and reports were forwarded to the Civil Service Commission on July 14, 1949.

The principal investigation in this case was conducted in Chicago, Illinois, and resulted in the establishment that the employee has been an active member of the Communist Party, his period of activity extending as far back as 1938, during which year he attended the Party Builders Congress in New York City as a delegate from Chicago. The investigation in Chicago was of a particularly lengthy and involved nature. This investigation was conducted and reported by the Chicago Office in a highly commendable manner. The attached report of Special Agent J. Baird Reynolds reveals that only minor corrections in phraseology were necessary at the Bureau with the exception of inserting information concerning the results of a check of Government agencies in Washington, D. C., by the Washington Field Office. That information could not be inserted by the Chicago Office inasmuch as that office was not in receipt of the information submitted by the Washington Field Office until after the date of the Chicago report.

The Chicago report indicates that in addition to Special Agent Reynolds whose name appears on it, substantial investigation was conducted by Special Agents John F. Glenville and Carl N. Freyman. It is observed that Special Agent H. C. Pohlmann participated in this investigation only to the extent of interviewing one confidential informant.

STATUS:

Closed.

RECOMMENDATION:

It is recommended that this memorandum with the attached report be routed to the Administrative Division for consideration concerning the advisability of directing letters of commendation to Special Agents Reynolds, Glenville and Freyman.

NARRATIVE COMMENTS

Note: The regulations require that OUTSTANDING ratings be supported by a statement in writing setting forth IN DETAIL the performance IN EVERY ASPECT and the REASONS for considering each worthy of SPECIAL COMMENDATION. UNSATISFACTORY ratings must be supported by a statement in writing stating (1) WHEREIN the performance is unsatisfactory, (2) the facts of the (90 day) PRIOR WARNING, and (3) the efforts made AFTER THE WARNING TO HELP the employee bring his performance up to a satisfactory level.

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).
✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
○ No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out below.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out below.

On 4/29/52, SA Supervisor Joseph Schmit of the Internal Security Section of the Domestic Intelligence Division advised me that the captioned agent has been working on the TOPLEV Program and has had some recent success which makes it most desirable that he remain undisturbed on this Program for at least the next six weeks. Mr. Schmit stated that he understood Agent Freyman was scheduled to attend In-Service training on 5/13/52 and he thought it would be to the best interest of the Bureau to have him remain in Chicago for the next six weeks.

In view of this, I arranged with the Movement Unit to have a substitute to attend from Chicago and Agent Freyman will not be scheduled for In-Service training for at least the next six weeks.

By memorandum to Mr. Belmont Mr. Baumgardner has recommended that the captioned Special Agent be afforded a meritorious increase in salary for his outstanding work in the development of several security informants. Mr. Belmont and Mr. Ladd concur.

DETAILS

Mr. Baumgardner advised that Agent Freyman first contacted CG-5825-S in May, 1951, in connection with a Loyalty of Government Employee investigation. This individual had been a member of the Communist Party from 1943 to 1947 and at the time of the interview in May, 1951, stated that she had dropped from the Party in 1947 but had maintained her Communist beliefs. She further stated that she believed the Communist Party was helping her race (Negro) and she was convinced the Party was helping the trade-union movement. Agent Freyman discussed the Communist Party line on the Negro question with her as well as the use of the trade-union movement by the Communist Party to further its revolutionary aims. The Bureau's jurisdiction in civil rights was pointed out to her and she was shown that evidence had been offered in courts which conclusively proved that the Communist Party was a menace to the security of the country and that Communists advocate and teach the violent overthrow of the Government.

Agent Freyman continued to work with this potential informant during the next nine months and maintained close personal contact with her thereby winning over her confidence in himself and the Bureau. Although the potential informant was reluctant to reactivate herself due to personal fear Agent Freyman was able to convince her to cooperate with the Bureau after spending many hours discussing the Communist Party and Bureau security with her. This informant recently agreed to reactivate herself in the Party for the benefit of the Bureau and by letter dated 4-30-52 she was designated a security informant of the Chicago Office. On 4-22-52 she was successful in re-registering in the Communist Party and since that time has been attending Communist Party meetings and furnishing information to the Chicago Office.

Mr. Baumgardner further advised that SAC Malone of the Chicago Office has recommended that Agent Freyman be granted a meritorious increase for his outstanding work on this matter, pointing out that the successful development and handling of this informant was due to the close personal contact of Agent Freyman, the personal interest he took

in her problems and the friendliness he exhibited toward her.

In addition to the development of the above informant, Mr. Baumgardner advised that Agent Freyman has been assigned to the development of high-level Communist Party informants since September, 1951, and is presently engaged practically full time in the development and handling of CG-5824-S, a former national leader of the Communist Party, and formerly District Chairman of District No. 8 of the Party. Freyman has done an excellent job in the interviews with this high-level informant and much of the success in the development of this man can undoubtedly be attributed to the intense enthusiasm exhibited by this Agent.

Mr. Baumgardner stated it is believed that a meritorious raise is warranted for Agent Freyman on the basis of these two excellent informants who have been developed and handled by him.

JUSTIFICATION

It is believed that Agent Freyman's performance conforms with one of the standards for Superior Accomplishment which provides as follows:

"A special act or service in the public interest, related to official employment, over and above normal position requirements, of an unusual or distinctive character, where its recognition as a basis for an additional advancement would serve as a definite incentive to others."

If the recommendation for a meritorious increase in salary for Agent Freyman is approved, it is suggested that the following be submitted to the Awards Committee of the Department in justification:

Agent Freyman's extremely important work performance has been in the field of national defense in the development of highly confidential information essential to the internal security of the United States, which information would not otherwise have been available. Although the details of the services performed by Agent Freyman cannot be divulged for security reasons, it is believed his work performance has exceeded the normal requirements of his position and is deserving of special recognition.

RECORD AS BUREAU EMPLOYEE

A review of Agent Freyman's file reflects he entered on duty

Memorandum to Mr. Glavin - continued

on 2-2-42 as a Special Agent in grade CAF-9, \$3200 per annum. He has served in the Newark and New York offices and was transferred to Chicago on 2-16-45. On 3-2-52 he was reallocated to grade GS-13, \$8360 per annum and on 3-31-52 was rated Satisfactory by SAC O'Connor.

Agent Freyman's overtime for October, 1950, was 56 minutes, for November, 1 hour, 13 minutes, and December, 1 hour, 56 minutes, and for March, 1952, 1 hour and 50 minutes.

A PERMANENT BRIEF OF HIS PERSONNEL FILE IS ATTACHED.

RECOMMENDATION

In view of the outstanding performance of Agent Freyman as outlined above it is recommended that he be afforded a within grade salary increase in grade GS-13 from \$8360 to \$8560 per annum as a reward for his superior accomplishment.

To recommend that SA Freyman be given a meritorious raise for his outstanding work in the development of several security informants.

Freyman first contacted CG-5825-S in May 1951 in connection with an LGE investigation. and Bureau security with her. Recently this informant has agreed to reactivate herself in the Party for the benefit of the Bureau and by letter dated April 30, 1952, she was designated a security informant of the Chicago Office. On April 22, 1952, she was successful in reregistering in the Communist Party and since that time has been attending Communist Party meetings and furnishing information to the Chicago Office.

SAC Malone recommends that Agent Freyman be granted a meritorious raise for his outstanding work in this matter. SAC Malone points out that the successful development and handling of this was due to the close personal contact of Agent Freyman, the personal interest he took in her problems and the friendliness he exhibited toward her.

OBSERVATIONS

In addition to the development of this informant, SA Freyman has, since September 1951, been assigned to the development of high-level Communist Party informants and is presently engaged practically full time in the development and handling of CG-5824-S, a former national leader of the Communist Party, and formerly District Chairman of District No. 8 of the Communist Party. SA Freyman has done an excellent job in the interviews with this high-level informant and much of the success in the development of this man can undoubtedly be attributed to the intense enthusiasm exhibited by this Special Agent. It is believed, therefore, that a meritorious raise is warranted in this case on the basis of these two excellent informants who have been developed and handled by SA Freyman.

In connection with the Toplev Program (development of high-level Communist Party informants), Agent Freyman has been assisted in this program by SA [redacted] of the Chicago Office since the inception of the program. In addition to assisting Agent Freyman in the development of CG-5824-S, SA [redacted] has also

participated in the development of [redacted], another high-level Communist Party informant and it is believed that we should ask SAC Malone for his recommendation concerning commendation for SA [redacted].

RECOMMENDATION

If you approve, this memorandum should be transmitted to the Administrative Division so that further consideration can be given to a meritorious raise for SA Freyman and the attached letter should be sent to Chicago requesting the SAC's recommendation re commendation for SA [redacted].

PURPOSE

To recommend that consideration for commendation for Special Agent [REDACTED] be withheld until full details are ascertained as to the success of [REDACTED] in reactivating himself within the Communist Party. *Sydney*

DETAILS

Both of the above Special Agents are presently engaged on a full-time basis in the program for the development of top-level Communist Party informants. In this connection Special Agent Freyman was primarily responsible for the development of CG-5824-S, a high-level informant, and because of this and his other excellent work in the development of security informants, it has been recommended that Special Agent Freyman be considered for a meritorious raise.

b7D
b6
b7C

At the same time this recommendation was made a letter was transmitted to Chicago requesting the SAC's recommendation regarding commendation for SA [REDACTED] who has participated in the above program from the start and who has been successful in developing another high-level informant, [REDACTED].

Handled by [unclear] memo. [unclear]

RECORDED-49

SAC Malone has now advised that he believes that Special Agent [REDACTED] has done a very outstanding job in the development of this informant and that informant has an excellent potential if he is able to reactivate himself in the Communist Party. SAC Malone states that he has hesitated to date in recommending SA [REDACTED] for commendation for this work because he, SAC Malone, desires to see whether or not this informant is successful in reactivating himself in the Communist Party. SAC Malone points out that the degree to which this informant can reactivate himself will determine the type of commendation this Special Agent deserves and unless the Bureau indicates otherwise SAC Malone plans to defer any recommendation concerning SA [REDACTED] until a later date. This recommendation is concurred in by the Internal Security Section.
